

## **An Open Letter to Elon Musk and Vivek Ramaswamy**

Gentlemen:

As you begin your journey to cut useless or harmful U.S. Government programs – there may be no greater leverage than stopping federal grants, contracts, loans to non-governmental organizations – NGOs co-funded by Leftist ideologues.

The issue you face is these NGOs operate with anodyne names – hiding their disruptive objectives.

They use tax-exempt funding, often from Leftist billionaires, to support hundreds of other organizations interfering in elections, electing D.A.s who set criminals free.

Identifying, and removing the federal funding – via contracts, grants, loans – to these NGOs has the double benefit:

- Leftist NGOs, the central nervous system of the left are emasculated
- Citizens see the impact of your work in their daily lives as these groups lose funding

As you attempt to navigate the literally hundreds of thousands of such organizations – finding their connections to others – you will encounter a technology challenge - with current, traditional technology.

Current technology requires months to years to build a tracking system tying these orgs to each other.

The costs will run into the millions-of-dollars and you may run out of time before you identify the most egregious Leftist orgs funded by the federal government.

We offer you a technology alternative – the [Fractal Dark Money Tracking System](#) – already fully operational, as you can see in our videos.

Built with Fractal quantum-speed technology, Fractal eliminates the need for massive data centers, operating on current hardware you can hold in your hand.

This Fractal Dark Money Tracking System identifies every NGO, identifies any federal money supporting that NGO found with a few clicks.

[Here is a short video.](#)

As you will likely discover, the federal bureaucracy has been funding these NGOs for decades – and these NGOs form an arm of the Left to achieve ends the government could never attain.

Conventional technology made these connections impossible to see – until the Fractal quantum-speed systems made these networks visible – down to your phone.

We invite you to join us in a demonstration of the [Fractal Dark Money Tracking System](#) showing you how advanced, quantum-speed technology changes the horizon possibilities for your program.

Sincerely,

The Team at [StopFundingLeftistNGOs.com](http://StopFundingLeftistNGOs.com)
